

Apartments of “the Visitandines”

Welcome to the apartments of “the Visitandines” in the heart of Brussels!

Presentation

Dedicated to creation, the new project of the Brigittines is now completed in its infrastructure. Besides the historic chapel of the 17th century and its contemporary double, a building allowing homes for national and international artists was attached to the project.

Via its seven housing, the Brigittines can accommodate each year artists or artistic teams. They affirm their identity at both national and international level as a place of research, transmission and merging knowledge.

The building

The building consists of a ground floor and four floors.

The first three floors each have a flat and a loft. All are very bright. The flats are ideal for 2 people and the lofts can accommodate 4. Removable walls can serve as separations between the rooms. These lofts are also designed to accommodate a family. Each accommodation has a well-equipped kitchen, a bathroom, furniture storage, a lounge with sofas, a sofa bed and wifi connection. A large wooden terrace on the fourth floor overlooks the apartments.

Provided with a lift, the building is accessible for people with reduced mobility.
